

THURSDAY - 26 May 1949

1. Mr. Sugarman, Bureau of Internal Revenue, called to inquire whether there were published directives issued under the National Security Act regarding CIA's right for intelligence information. Informed him that any such directives were highly classified and issued by the National Security Council to us. Subsequently, Mr. [redacted] STATINTL  
OCD, called me to state that OCD had placed a request through its normal Treasury Liaison, Coordinator of Intelligence Activities of the Department of the Treasury, which request had evidently been forwarded to the Bureau of Internal Revenue for action. Mr. Sugarman had called [redacted] in this connection and he had referred the call to us STATINTL  
for interpretation. It is felt that no further inquiry in this connection will be forthcoming.

2. Spoke with Mr. Arens of the staff of the Senate Judiciary Committee, Subcommittee on Immigration, regarding letter of 25 May from Mr. Schroder of his staff, requesting information concerning any data on the activities of 4 ECA officials abroad. Informed him, after consulting with the Executive, that this was outside our jurisdiction, and that any information which by chance we might have received would have been transmitted to the security officer of ECA and the FBI, from whom he could obtain it.

3. Attended Director's Staff Meeting.
